Grade Item	Points	Weight Achieved	Grade	Comments and Assessments
Reading Test 1	17 / 25	6.8 / 10	C+	
Writing Test 1	11 / 15	11 / 15	B	Overall Feedback Thanks for the effort, Mehak. Please consider the following points: You should have started the paragraph with a proper topic sentence that answers the topic question. You have good ideas and have done a good job of developing your points, but unfortunately, you have too many grammatical mistakes that

sometimes impede understanding. Please proofread your work so that you can reduce the number of your mistakes.

The main mistakes include: verb/ subject agreement, plural/singular agreement/ the use of articles, pronouns with ambiguous antecedents, spelling mistakes, etc.

Oral Presentation	78 / 100	7.8 / 10	B+	Overall Feedback Thanks for the effort, Mehak. It was interesting to learn about you and your culture. However, since this was an oral presentation, you had to rely more on presenting the ideas from memory or cues rather than reading. Unfortunately, most parts of it were written on the slides, and you were trying to read or look at the content while presenting. What's more, you were not supposed to provide your readers with general descriptions of the concepts and you had to emphasize more on your own points of view and beliefs. The PowerPoint presentation could also have been more creative.
Reading Test 2	7.5 / 20	3.75 / 10	F	
Writing Test 2	9 / 15	12 / 20	C	Overall Feedback Thanks for the effort, Mehak. Please consider the following points: There was no need for an introduction. The thesis statement is incomplete as it does not include the three paralleled main ideas. Improper topic sentences (paras 2 &3). Please refer to weeks 5 & 6 to review the guidelines. In paras. 2 & 3 the main points are supported by only one supporting point. Avoid informal

language and using phrases such as "I believe, or in my opinion".

Improper narrative citation format.
The conclusion is too long. You were supposed to write only one sentence.

There are many agreement mistakes and spelling typos, so make sure that you proofread your final work before submission.
